

11<sup>th</sup> October 2022

Dear Parent/Carer

**Re: Year 11 Mentoring & Sixth Form Applications**

As part of our programme to prepare Year 11 for their Mock examinations and applications to Sixth Form, we will begin our Year 11 Mentoring process on **Tuesday 18<sup>th</sup> October 2022** from **3:40–4:40pm**. The mentoring process begins with a 1-1 meeting between students and their mentor, which focuses on their preparation work for the Mock examinations alongside discussing their Post-16 intentions.

The second Year 11 Mentoring session will be taking place in the Spring Term.

In the build up to the Spring mentoring session, Year 11 will be undertaking a number of activities to support them in making a well-informed choice about which A-Levels or courses they might apply for. In form time, students will be asked to complete a 'Higher Education Research Sheet' where they will be researching potential careers, University and A-Level courses including admission entries to a wide range of different institutions.

In addition, Year 11 will be undertaking activities on 'Unifrog', which will support them in understanding all of the Post-16 and Post-18 options available to them. All of this will then be discussed with their mentor.

Finally, can I also remind you of the deadline for Sixth Form applications which is **30<sup>th</sup> January 2023**. All applications must be made online via the Sixth Form website.

If you have any questions or queries regarding the Year 11 mentoring process or Sixth Form applications, please do not hesitate to contact me.

Yours sincerely

Mr S El Sayed  
**Head of Sixth Form**
