

28th February 2023

Dear Parent/Carer

Re: Year 12 Futures Day

As part of Ashmole's programme to deliver excellent careers education and independent advice and guidance, we are excited to host our inaugural Year 12 Futures Day at the school on Thursday 23rd March 2023. This will be a fantastic opportunity for all Year 12 students to speak to universities, apprenticeship providers, current apprentices, multi-national corporations and alumni.

These interactions will help students explore their own future choices and pathways and allow them to have career focused conversations with people from a variety of institutions to support them further in making their own informed decisions.

We are aware that many Ashmole parents and carers are from a wide variety of interesting industries and businesses and so the school would love the opportunity for parents to be part of our Futures Day. Parents are invited to be involved in the fair held in the Sixth Form Centre and would involve speaking to students informally about career journeys, information about the industry or business, pathways in and general career related experiences.

We are particularly interested in parents/carers from engineering, marketing, IT, media, civil service, performing arts, medicine and health care, law and hospitality but we would welcome people from all career areas so we can maximise the experience for the students on the day.

If you feel you may be able to attend our exciting Futures Day or have general questions, please do email myself at gif@ashmoleacademy.org

Yours faithfully

Mr T Gilfeather
Head of Personal Development
