

10th October 2023

Dear Parent/Carer(s)

As part of Ashmole's Careers Education and Independent Advice and Guidance (CEIAG), we will be hosting a 'Be Career Ready' Day for all Year 10 students on Wednesday 18th October.

This is a fantastic opportunity for students to speak directly to people from a range of businesses and industries including law, finance, engineering, architecture, design, journalism and accounting. For part of the day, students will be in smaller groups and discuss potential career pathways, the world of various businesses and industries and tips on their future post 16 and 18 routes with people who have a wealth of experience in these areas of work. Beyond this we also hope to see our Year 10 students demonstrating professionalism and cooperation when engaging with our visitors from the various sectors of industry.

The day will also include a focus on the rapidly changing world of work looking at specific labour market information, apprenticeships, T Levels and how Unifrog can help to guide future decisions regarding careers and personal development. We coordinate this day with an external agency, the Business Education Partnership.

Students will be involved in the day from Periods 1-4 and normal lessons resume for Period 5. Please feel free to contact me if you have any questions regarding this exciting opportunity.

Yours faithfully

Mr M Louca
