Dear Parent/Carer(s)

Re: Futures Launch – Year 12

It is time for students to begin thinking about the potential routes available to them once they leave Ashmole Sixth Form in the summer of 2027. This is an exciting time as they prepare for a happy and successful future in whichever field they find most appealing. We find that students navigate this decision best when they are well informed and our Futures Programme is designed to guide them through their decisions.

We launched the programme in assembly recently and students have been engaging with activities relating to Futures choices in Personal Development sessions. We are also running the following events to support you and your child:

Tuesday 24th March – your child will have the opportunity to visit the UCAS exhibition at the Excel Centre in London's docklands. More information will follow shortly.

6:00pm-7:30pm, Wednesday 25th March – you and your child are invited to attend our Futures evening where you will hear about the programme we offer in more detail and you can attend three seminars delivered by experts from universities, apprenticeship providers and specific careers.

Thursday 26th March – students will be off timetable during periods 2-4 to attend the Ashmole Expo, a fair for students to meet representatives from universities, apprenticeship providers and over 20 careers.

At the start of the summer term, students will meet their Futures mentor and have the chance to discuss their plans one-to-one with their tutor or a senior member of staff. This relationship will continue up until your child has made their application in Year 13.

We have also produced a booklet of guidance to help students through this process and will share this with you at the evening event on Wednesday 25th March.

I hope you find this information useful. If you have any questions or concerns, please contact me at the school.

Yours faithfully

Mr M Littleford
Assistant Head Teacher
